

# Nature Camp 2008

This summer, Buckeye Recreation Center is taking a love for nature to new heights. Kids will enjoy learning about the environment and ways to protect it through fun and interactive games and activities. We will spend the week learning about the water cycle, trees, and outdoor living skills. They will learn the meaning of ecology and how our actions impact the environment and will get to participate in fun activities like hiking, canoeing, fishing and a slip-and-slide!

Each day during nature camp will focus on a different aspect of the environment. We will be taking a look at the lake ecology here at Buckeye Lake, learning how to identify trees, focusing on our daily water use, and will incorporate activities like fishing, hiking, building emergency shelters, using a compass and canoeing into those focus days.

Camp will run from July 14 - 18 starting in the morning at 9:00am and ending in the afternoon at 3:00pm. The cost will be \$125.00 per child. **To register please return to the previous page.**
