## Stage 1 Voluntary Water Reduction

Water users are **encouraged** to reduce their water use and improve water use efficiency; however, no penalties apply for noncompliance. Water supply conditions indicate a **potential** for shortage.

In Stage 1, Voluntary Reductions, all water users will be asked to reduce their normal water use by 5%. Customer education and outreach programs will encourage water conservation and efficiency measures including:

- irrigating landscapes a maximum of one inch per week;
- preventing water waste, runoff and watering impervious surfaces;
- watering plants deeply to encourage root growth;
- washing only full loads in clothes and dishwashers;
- using spring-loaded nozzles on garden hoses;
- and identifying and repairing all water leaks.

Stage 2 is Mandatory Reduction I, all water users are expected to reduce their water use by 10%.
