To assist the board in reviewing your application, please show on the reverse of this application your sign drawn as accurately as possible to scale showing all dimensions, copy layout, colors to be used, and general materials used in fabrication. Also please provide as close to scale as possible a drawing as to location of sign on property or building. Finally, please describe how sign will be illuminated.

A separate application should be used for each sign permit requested. All signs must be staked out on the site and marked before any construction is begun.

Signature of Applicant: _____ Date: _____
